

NYC 25 Advantage

PROMOTION IS AVAILABLE TO ONLY 100 NEW YORK CITY BUSINESSES

NYC is giving 100 New York City storefront business owners the opportunity to offer their existing customers (and many new ones!) a 25% discount just for using NYC as payment.

Early NYC miners have established a fund that will reimburse business owners the FULL 25% DISCOUNT immediately. So **business owners receive full 100% payment** and their customer's receive a 25% discount simply for paying with NYC. This is a WIN-WIN that will increase owner's business substantially by attracting digital currency supporters as new customers and help increase the value of NYC due to increased buying demand.

Businesses that start accepting digital currencies like Bitcoin have reported a 10-30% increase in business from new customers. Digital currency supporters tend to support businesses of like-minded visionaries. Business owner will accept a digital currency for some purchases that will likely continue to dramatically increase in value alongside Bitcoin. With the ability to immediately "batch out" into Bitcoin or USD, as frequently as desired.
